## Health Professional Recovery Program

Are you working long hours and feeling burnout?

Do you feel yourself going down the wrong path?

Are you ready to make changes?

You can choose the direction you are going and get help with substance use or mental health.

The Division of Occupational and Professional Licenses offers a confidential, non-punitive program. This program was created to assist medical professionals (Doctors, Nurses, Dentists, Pharmacists, etc.) who have or are at risk of developing an addiction. The program's purpose is to assist professionals and their families to identify substance use disorders that pose a potential threat to their careers and get them the help they need.

If you answered yes to any of the questions above, let us help you preserve your license and get you on to the road to recovery. For further information about this program contact Katie Stuart.

Program Manager: Katie Stuart, CIP
